

Open Frame Mounting

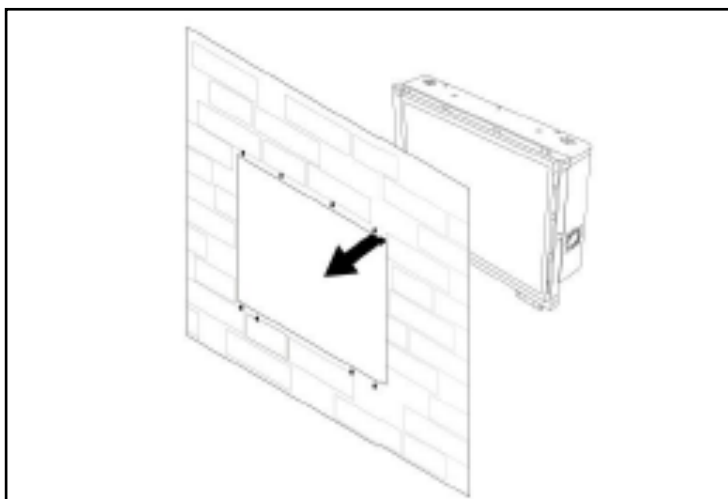

Installation Instructions

Open Frame Installation Instruction

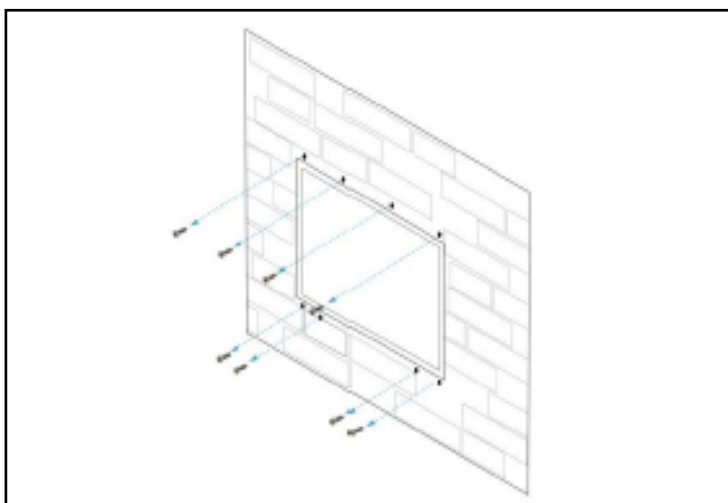

Step 1

- Make a cutout on the fixture (ex. wall) according to the cutout dimensions of the display.

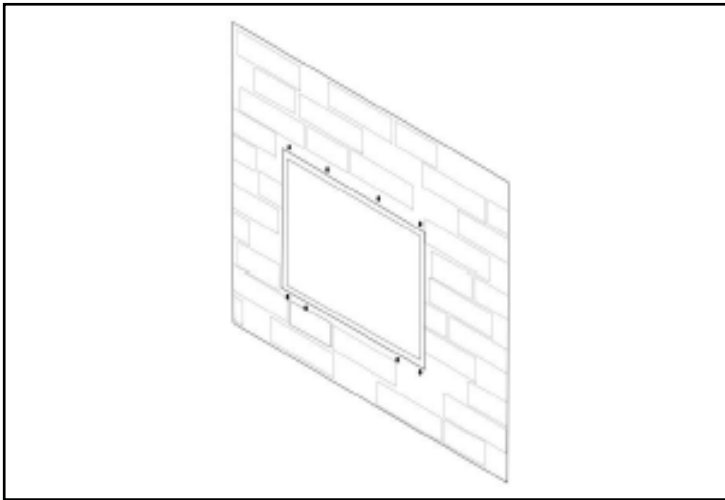

Step 2

- Based on the drawing, mark screw holes on a front side of the fixture.
- Place display on the fixture from the rear side.

Step 3

- Use electric screwdriver to fasten M3 screws from the front side.

Step 4

- Installation is complete. Please connect all the peripherals if needed.
